RESOLUTION

WHEREAS the Town of Big Piney has adopted and is enforcing Title IX of the Recodified Ordinances of Big Piney entitled Zoning Code, and

WHEREAS, Section 9-602 of the aforesaid prohibits any person, firm or corporation from erecting, constructing, enlarging, altering, repairing, improving, moving or demolishing any building or structure without first obtaining a separate building permit for each building or structure from the building Inspector, and

WHEREAS, the Building Inspector must examine all plans and specifications for the proposed construction when application is made to him for a building permit.

NOW, THEREFORE, BE IT RESOLVED by the Mayor and Town Council of the Town of Big Piney as follows:

1. That the Building Inspector shall review all building permit applications for new construction or substantial improvements to determine whether proposed building sites will be reasonably safe from flooding. If a proposed building site is in a location that has a flood hazard, any proposed new construction or substantial improvement (including prefabricated and mobile homes) must (i) be designed (or modified) and anchored to prevent flotation, collapse, or lateral movement of the structure, (ii) use construction materials and utility equipment that are resistant to flood damage, and (iii) use construction methods and practices that will minimize flood damage; and

2. That the Building Inspector shall review subdivision proposals and other proposed new developments to assure that (i) all such proposals are consistent with the need to minimize flood damage, (ii) all public utilities and facilities, such as sewer, gas, electrical, and water systems are located, elevated, and constructed to minimize or eliminate flood damage, and (iii) adequate drainage is provided so as to reduce exposure to flood hazards; and

3. That the Building Inspector shall require new or replacement water supply systems and/or sanitary sewage systems to be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, and require on-site waste disposal systems to be located so as to avoid impairment of them or contamination from them during flooding.

NOW THEREFORE, BE IT RESOLVED by the Mayor and Town Council of the Town of Big Piney as follows:

1. That the Building Inspector shall require the issuance of a permit for any excavation, grading, fill, or construction in the community; and

2. That the Building Inspector shall require review of each permit application to determine whether the proposed site and improvements will be reasonably safe from mudslides. If a proposed site and improvements are in a location that may have mudslide hazards, a further review must be made by persons qualified in geology and soils engineering; and the proposed new construction, substantial improvement, or grading must (i) be adequately protected against mudslide damage and (ii) not aggravate the existing hazard.

RESOLUTION

WHEREAS, certain areas of Big Piney are subject to periodic flooding and/or mudslides from North Piney Creek potentially causing serious damages to properties within these areas; and

WHEREAS, relief is available in the form of Federally subsidized flood insurance as authorized by the National Flood Insurance Act of 1968; and

WHEREAS, it is the intent of the Mayor and Town Council to require the recognition and evaluation of flood and/or mudslide hazards in all official actions relating to land use in the flood plain and/or mudslide areas having special flood and/or mudslide hazards; and

WHEREAS, this body has the legal authority to adopt land use and control measures to reduce future flood losses pursuant to Section 15.1-83, Wyoming Statutes, 1957.

NOW THEREFORE, BE IT RESOLVED THAT THE MAYOR AND TOWN COUNCIL hereby:

1. Assures the Federal Insurance Administration that it will enact as necessary, and maintain in force for those areas having flood or mudslide hazards, adequate land use and control measures with effective enforcement provisions consistent with the criteria set forth in Section 1910 of the National Flood Insurance Program regulations; and

2. Vests the Mayor with the responsibility, authority, and means to:

   (a) Delineate or assist the Administrator, at his request, in delineating the limits of the areas having special flood and/or mudslide hazards on available local maps of sufficient scale to identify the location of building sites.

   (b) Provide such information as the Administrator may request concerning present uses and occupancy of the flood plain and/or mudslide area.

   (c) Cooperate with Federal, State, and local agencies and private firms which undertake to study, survey, map, and identify flood plain or mudslide areas, and cooperate with neighboring communities with respect to management of adjoining flood plain and/or mudslide areas in order to prevent aggravation of existing hazards.

   (d) Submit on the anniversary date of the communi-
ty's initial eligibility an annual report to the Administrator on the progress made during the past year within the community in the development and implementation of flood plain and/or mudslide area management measures.

3. Appoints Town Clerk to maintain for public inspection and to furnish upon request a record of elevations (in relation to mean sea level) of the lowest floor (including basement) of all new or substantially improved structures located in the special flood hazard areas. If the lowest floor is below grade on one or more sides, the elevation of the floor immediately above must also be recorded.

4. Agrees to take such other official action as may be reasonably necessary to carry out the objectives of the program.
